Camper Release Form

The state of Michigan regulations require the names of person(s) to whom we may release your child. Of course your child may be released to the legal parent or guardian at any time. However, if your child is to be released to anyone other than the legal parent or guardian than the name of the individual or organization must be listed below. If there are custody issues which we need to be aware of, please provide that information as well. For example, if a parent does not have legal custody and the parent or guardian who has legal custody does not want the child released to the parent without custody, please provide that information. If an individual attempts to pick up your child who is not the legal parent or guardian, we will not release your child to that individual, but will contact you through the phone numbers provided in the registration information.
